WHAT'S NEW

FOR 2017

TOW AND HAUL WITH **SAFETY** AND COMFORT™

Load**LIFTER**7500**XL**

All NEW for 2017!

Up to 7,500 lbs. of load-leveling capacity*

LoadLifter 7500 XL™ offers up to 7,500 lbs. of load-leveling capacity and is designed to support the largest loads on the road. What sets the LoadLifter 7500 XL apart from other load support applications is its combination of maximum leveling ability, adjustability, and an uncompromising ride quality. This makes it the best choice for towing and hauling the heaviest loads with the utmost safety and comfort.

Year	Make and Model	Drive	LoadLIFTER 7500 XL
2011-2016	Ford F250/350	4WD	57596
2017	Ford F250/350	4WD	57599
2011-2017	Chevy/GMC 2500/3500	4WD	57538
2003-2017	Dodge RAM 3500	4WD	57595

HAULING THE HEAVY LOADS

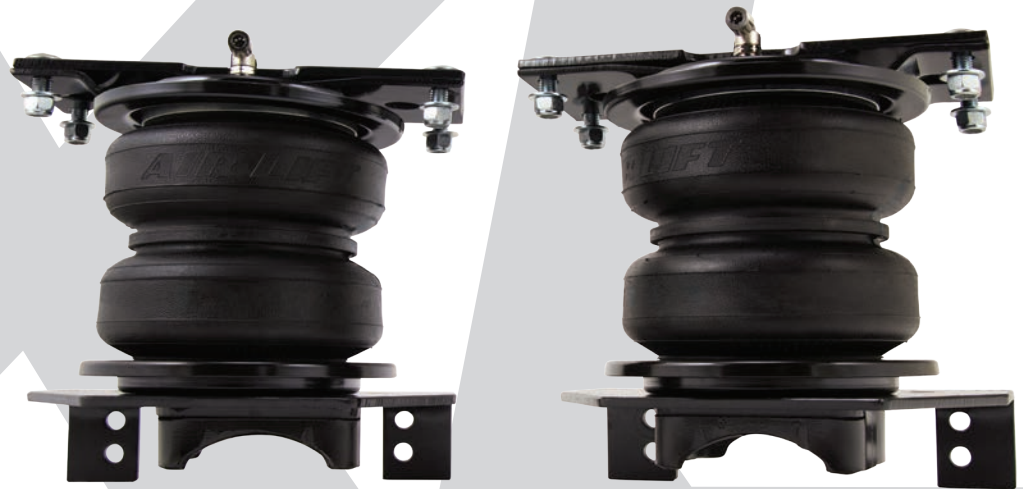

Features

- Up to 7,500 lbs. of load-leveling capacity*
- Massive 7-inch double-convoluted-bellow air springs creates a better ride than most products with similar weight ratings
- Up to 20% more air spring volume than LoadLifter 5000 air springs
- Air adjustable from 5 to 100 PSI
- Air Lift-exclusive upper and lower roll plates protect the air springs from possible abrasion and increase load capacity up to 10%
- Most kits use the existing holes in the vehicle's frame for a bolt-on installation – no drilling required!
- Easy to install with illustrated installation manual
- End caps made of ultra high-strength, corrosion-proof, nylon composite which is as strong as steel but weighs less and will not rust
- All kits are compatible with most 5th wheel and gooseneck hitches

LoadLIFTER 7500 XL

THE MOST HALF-TON

Air Lift 1000™

Trucks with coil sprung rear suspensions

- Up to 1,000 pounds of leveling capacity*
- Fits most open coil springs on the front or rear
- Tough molded polyurethane construction
- Air adjustable to custom tune the desired ride
- Easy to install using common tools!

RideCONTROL™

Casual and infrequent towing

- Up to 2,000 pounds of leveling capacity*
- Air adjustable from 5 to 100 PSI
- Air Lift Exclusive: alignment tool included for easy installation
- Most kits use the existing holes in the vehicle's frame for a bolt-on installation – no drilling required!
- Easy to install in 2 hours or less!

LoadLIFTER 5000™

Frequent towing

- Up to 5,000 pounds of leveling capacity*
- Does not interfere with in-bed hitches
- Air adjustable from 5 to 100 PSI
- Includes roll plates to protect the air springs from possible abrasion
- Most kits use the existing holes in the vehicle's frame for a bolt-on installation – no drilling required!
- Easy to install in 2 hours or less!

LoadLIFTER 5000™ ULTIMATE

Ultimate ride comfort & protection

- Fits the same vehicles as LoadLifter 5000
- Up to 5,000 pounds of leveling capacity*
- Jounce bumper inside absorbs shock
- Safely run springs at zero air pressure
- Air adjustable from 5 to 100 PSI
- Includes roll plates to protect the air springs from possible abrasion
- Most kits use the existing holes in the vehicle's frame for a bolt-on installation – no drilling required!

Cutaway View

Air CELL™

Snow plow or fleet applications with constant loads

- Rear kits for popular late-model pickups
- Front kits for snow plow support
- Better ride than rubber load supports or steel overload springs at half the cost
- Tough, long lasting rugged material—same as factory jounce bumpers

Choosing the right on-board air compressor system is easy!

Single Path

Air springs are routed together for equal inflation.

Dual Path

Air springs are routed separately for different air pressure side-to-side. Perfect for uneven or top-heavy loads.

Automatic

- Non-contact height sensors control air spring pressure
- No controller
- Responsive and accurate to less than 1/16"
- Vehicle goes back to level automatically
- Installs in about 1 hour

SmartAIR™ II
Solution # 25490

SmartAIR™ II
Solution # 25491

Wireless

- Wireless controller with exterior-mounted compressor and manifold
- Programmable preset positions
- Adjust to tune the ride
- Installs in about 1 hour

WirelessONE™
Solution # 25870

WirelessAIR™
Solution #72000

Now with inline air/water separator!

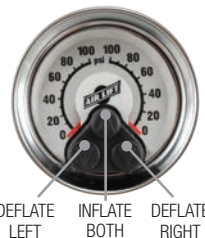

Compact Analog

- In-cab mountable controller connected via air lines to exterior mounted compressor
- One-touch button control
- Low pressure sensor
- Standard or heavy duty compressor options
